

**BIOSOLIDS LAND APPLICATION REQUEST FORM FOR  
PERRY COUNTY MISSOURI PROPERTY OWNERS**

In accordance with the biosolids handling policy as set forth by the City of Perryville, I will provide the following information required to complete the process for the land application of biosolids to my property. This process includes the following:

1. Completion of the Biosolids Land Application Request Form.
2. Inspection of the property by Public Works Director and Wastewater Plant Superintendent. This inspection is to verify that the property meets the criteria as set forth in the EPA Regulation 40 CFR 503.
3. Submit a soil sample upon request to the Public Works Director.
4. A review will be held by the Public Works Director, City Administrator and the Board of Alderman for the purpose of verifying and approving established criteria.
5. Written notification to the property owner of an approved/disapproved status.
6. If your property has been approved for land application, you will need to contact the Wastewater Plant Superintendent at 547-2690 to establish delivery times.

I, (Property Owner's Name) \_\_\_\_\_, do hereby request the City of Perryville deliver biosolids from the Wastewater Treatment Facility to my property which is located at the following address: \_\_\_\_\_. I have approximately \_\_\_\_\_ acres of ground in which to apply the requested biosolids. The following is a legal description of my property (see attached). My intended use for these biosolids are (crops, pasture, hay, fields, etc.) \_\_\_\_\_.

I submit this request to the City of Perryville with the understanding that no guarantees or promises are being made as to the quantity of biosolids that will be delivered to my approved property. I further understand that the biosolids will be delivered on a first come, first serve basis when weather and soil conditions allow their safe application. The City of Perryville will be responsible for the safe delivery and proper land application of the biosolids to the approved site. The City of Perryville will always follow the "Best Management Practices" as per the biosolids handling policy, as well as maintain compliance under EPA Regulation 40 CFR 503.
